Filter coffee machines with discharge stop.

Instructions for using awimac 2000 CAFE clean

Congratulations on the purchase of awimac 2000 CAFE clean cleaning tablets. With regular cleaning of the central unit awimac 2000 CAFE clean contributes to the taste of perfect coffee and looks after your machine. awimac 2000 CAFE clean is phosphate free and manufactured without phosphate substitutes.

Please follow the manufacturer's instructions for coffee machines with built-in cleaning programs.

Cleaning should be carried out after approx. 50 cups or every 14 days.

1. Place coffee pot under filter without lid and place one awimac 2000 CAFE clean tablet in filter (without filter paper).
2. Fill water tank and allow 0.3 - 0.5 litre of water to run into filter
3. Thoroughly clean filter with this solution, then pour solution away.
4. Rinse filter thoroughly.

DO NOT INGEST TABLETS, KEEP OUT OF REACH OF CHILDREN, RINSE THOROUGHLY WITH WATER IF TABLETS COME INTO CONTACT WITH EYES.
